

Novel coronavirus (COVID-19)

TRAVELLERS' ADVICE

You are returning from China or an area where the virus is actively circulating* (directly or via another country)

*www.gouvernement.fr/info-coronavirus

During the 14 days following your return

- Monitor your temperature twice a day
- Wear a surgical mask when you are with your relatives or outside your house
- Reduce non-essential activities (cinema, restaurants, parties...) and avoid places with at-risk individuals (maternity hospitals, hospitals, retirement homes...)
- Wash your hands regularly

In case of fever or feverishness, cough, breathing difficulties

Contact the **SAMU** immediately (french emergency medical services – dial 15), and mention your history of travel.

Do not go directly to your GP's or to the hospital.
